

SMART SOLUTIONS FOR THE LABELING INDUSTRY

EASY LABEL DISPENSER

model SED03

model SED02

model BED01

The easy dispenser will assure you the maximum flexibility and the best efficiency/price ratio making it easy for you to apply labels in your semi-automatic manual labeling operations.

Two buttons will allow you to choose between a manual detachment of the label, that means to push the button when you want the label to be detached, or an automatic detachment, that means to take the labels automatically in succession.

Through a knob you can set the label's length to detach, from 5mm (0.20") up to 180mm (7.08").

All the dispensers have a top to write on the label before detachment and are equipped with an external auto-switching 100/240VAC - 2.5A at 24V power supply and an electronic circuit controls the functions with a protection 2A fuse.

SPECIFICATIONS

Features	SED03	SED02	BED01
